Soft Dough BLANDIVER

Working with Soft Dough Blandiver is a treat! Because this coloured modelling dough is very soft and can be moulded really easily. As it is a water-based product, it has a very fresh texture and pleasant feel.

What's more, it is designed to be the first dough for children from the age of 3 upwards and is completely harmless. Blandiver is available in bright colours that can be mixed together. It can be used with moulds, rolling pins, modelling tools and presses or extruders.

- It can be moulded easily.
- A wide range of colours which can be mixed together.
- Harmless, but has an unpleasant taste to prevent kids from putting it in their mouths.
- Easy to clean.
- Suitable for use from 2 years and above.
- Ideal dough for starting out in the world of modelling.
- Very soft texture, pleasant to touch and bright colours.
- Helps develop creativity, fine motor skills and knowledge of colours and textures.
- Ideal to be used with accessories such as JOVI extruders and presses.
