

Product Information

pébéo *Modelling paste*

Colours and Formats:

- 1 white paste and 12 coloured pastes
- 4 pastes textured with plant materials (corn, cornflower petals, marigold petals and flax fibers)
- By the unit and in activity sets and kits

Properties:

- Raw materials: 100% natural, originating from organic agriculture, gluten-free, additive-free, from non-GMO crops and untreated certified salt.
- Plant and food colouring-based colours
- Paste: very soft, flexible, non-sticky, that does not crumble
- Odour: mild and light
- Preserve in its pot, tightly closed, protected from light (since food-colouring is more sensitive to light than synthetic dyes), and preferably in the refrigerator once open.
- It is advisable to use the paste within the 12 months after opening.
- For children 2 years of age and older, under the supervision of an adult. Remove the packaging and remove all the small security features of the pots before offering them to the child.
- CE marking attesting to the compliance with the requirements of the European Directive on the safety of toys
- Packaging: Imprim'Vert, the environmentally-friendly printing brand

Applications:

Pébéo modelling paste encourages bare-hand exploration and play, freeing our expression and stimulating the senses.

Enables the child to develop their first movements, such as: pinching, pulling, rolling, peeling, stacking, flattening, binding, lifting, smoothing, touching, tapping, kneading, opening, digging, shaping, twisting, ... so from 3 years of age, their experience can be enhanced by using different accessories: textured plates (made from bioplastics), carving tools,

It is advisable to wash your hands before and after use.

If the paste is a little dry, wrap it in a damp cloth to enable it to retain its flexibility. The paste can be composted in home compost.

Non-contractual document updated on 28/02/2017

PEBEO - BP 106 - 13881 GEMENOS Cedex FRANCE Tél. : +33.(0)4.42.32.08.08 Fax : +33.(0)4.42.32.57.15

To remove paste residue or stains caused by the modelling paste, let it dry and then use a clothing brush to scrub it or a vacuum. If that is not enough, wash your clothes or fabrics in cold water with neutral soap.

Recommendations:

This information is presented for informational purposes. It is advisable to always carry out preliminary tests on the selected surface before starting a piece.
