

SOFTCUT™ CARVING BLOCKS

SoftCut™ is manufactured by us to be the best alternative to Lino - designed to extend the block printing experience to a greater range of people.

SoftCut™ is formulated for very easy cutting. It holds fine detail without crumbling and yet stands hard against the pressures of printing presses. SoftCut™ can be drawn on in pencil, due to its near-white surface. Finely smooth on one side, textured on the other, SoftCut™ is both double sided and flexible.
